

ZAVHORODNII DMYTRO

Front-end Developer

I have recently completed an internship in the education sector as a Full Stack Developer, primarily focusing on front-end development. I am now highly motivated to continue expanding my skills and am actively looking for new opportunities as a front-end or full-stack developer. I'm driven by problem-solving, eager to learn emerging technologies, and excited to contribute to impactful projects.

Problem-solving
Ownership, Attention to detail,
Communication, Teamwork,
Adaptability

EDUCATION

Full-Stack Web Development

Jun 2024 – Jan 2025

BeCode School

Master of Medicine

2012 – 2019

Bogomolets National Medical University, Kyiv

WORK EXPERIENCE

Full-Stack Developer Intern — Dexr

Jan 2025 – Apr 2025

- Built and enhanced user-facing features in React/TypeScript (Next.js), including educational modules, organizational structure, and role-based access control (RBAC).
- Implemented membership and workspace logic so users can belong to specific orgs/workspaces and manage or gain access to different content.
- Added filtering mechanisms and improved discoverability and UX.
- Fixed UI/visual issues and helped translate Figma ideas into production.
- Collaborated closely with a back-end intern and the core team; integrated REST endpoints; participated in code reviews and daily stand-ups.
- Tech: React, TypeScript, Next.js, REST, CSS/Material UI, Git, Neo4j
